Is now a good time to buy a home?

Yes! Now is actually a great time to buy a home, prices are low and interest rates are still very reasonable. On the news we are bombarded with reports that banks are not lending money. That's not necessarily true for most borrowers. If you have decent credit, a little money down, and in some cases no money down for first-time homebuyer's, you should have no problem getting a mortgage. It is absolutely true that mortgage lending has changed but it is still relatively easy if you are working with the right lender. Contact the credit union for a free pre-approval; even if you are not sure you can qualify we can help get you in the right direction.
